## About Us

Flavorchem develops solutions for the food and beverage industries. Our comprehensive services include flavor and color creation and duplication, flavor modification, nutritional and functional formulations, and market insight on industry and product trends. Flavorchem is a Level 3 Safe Quality Food (SQF) certified supplier with over 40 years of experience in solving even the toughest flavor, color, and ingredient challenges. Partnering with us provides added benefits in a competitive market. Let us show you the Flavorchem advantage.

## Nutraceutical Solutions

Formulating for functional foods and beverages requires specialized knowledge: cost factors, application-specific considerations, and an ability to find creative solutions if unique development challenges arise. Flavorchem knows nutraceuticals and we work closely with you through every step of the process to ensure each solution performs according to your individual needs and specifications.

# Insight

There are many factors that influence nutraceutical trends: government mandates, economic climate, health concerns, and demographic shifts to name a few. It's easy to become overwhelmed trying to decipher all the research that's available.

Our customers don't stress, however, because we provide the research for them. Whether you're looking for facts and figures or flavor insight, we collect data from many sources and share this valuable information with customers. It's just another part of the Flavorchem advantage.
